HOW TO LIVE LONGER IN WAYLAND—COMMUNITY RESOURCES

On **Tuesday, January 11, at 7:30 p.m.**, our Great Presenters program will focus on community services and resources available to older adults in Wayland that will assist them in staying in their homes. Moderated by former library director Louise Brown, the program panel will include representatives from the Council on Aging, the Housing Authority, the Library, Parmenter Health Center, the Recreation Department, and PILOT. We will also introduce a new online Directory of Services for Older Adults sponsored by the Library. The directory has been developed to provide information on the wide variety of services available to middle-aged and older adults in Wayland. **The presentation will be in the Large Hearing Room of the Wayland Town Building.**

Wayland Author JULIETTE FAY Speaks On Her New Novel Sunday, February 6, 3-5 p.m.

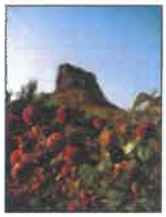
Deep Down True explores the life of newly divorced Dana Stellgarten. From Juliette's website: "As she enters the slipstream of post-divorce romance and is befriended by the town queen bee, Dana finds that the tension between being true to yourself and being liked doesn't end in middle school . . .it takes a real friend to help you embrace adulthood, in all its flawed complexity."

WHAT'S NEW IN SENIOR CARE?

Continuing our look at aging, on **Tuesday, January 18, in the Raytheon Room from 7-9 p.m.**, Linda Smith, principal of MetroWest Elder-Care Management in Wayland, will lead a panel discussion, followed by a Q&A, on "What's New in Senior Care." Greatly increased lifespans present elders (and the generations that follow) with unprecedented opportunities, as well as new challenges. The distinguished panel of elder experts are: Dr. Juergen Bludau, acting chief of clinical geriatric services at the Brigham and Women's Hospital; Wayland resident Carol Sneider Glick, an elder law attorney; author Dr. Deborah Bier, director with Caring Companion Connections; and Linda Smith herself, a private registered nurse and certified professional geriatric care manager. A follow-up program on February 15 will be on the "Essentials of 21st Century Caregiving."

PHOTOGRAPHY BY DOUG ANDERSON

In January, Doug Anderson will present photographs in the Foyer exhibit entitled Sardinia: Island Frontiers. Deceptively central on a map of the Mediterranean, this Vermont-size island tends to feel more like the edge of the Earth. The exhibit showcases the island's mythical landscape and some of the people who call it home. A native of Wayland, Doug spent a year in Sardinia (2007-2008) as recipient of Harvard's Henry Russell Shaw Fellowship and the Mortimer Hays-Brandeis Fellowship. Having just completed a program in radio documentary at the Salt Institute in Portland, Maine, he is looking forward to a career in producing multimedia documentary.



EARRING WORKSHOP

On **Saturday, January 22, from 2-4 p.m.** Norma Radoff returns to the library to give a fourth workshop for beginners on working with semi-precious stones. All materials will be provided, but if you have your own beads, please DO bring them. The class is limited to ten adults.

PERU PAST AND PRESENT - FROM ANCIENT TOMBS TO SCHOOL ROOMS

Wednesday, January 26
7:00 p.m.

Peruvian archaeologist and Wayland Middle School teacher, Daniel Fernandez-Davila, will give a talk about his work in the Northeast Andes of Peru where he has studied the pre-Inca civilization of the Chachapoya people. The Chachapoya mummified their dead in tombs, many of which lie undisturbed today but at the mercy of looters and inclement weather. Following, learn about Hatun Runa, a Wayland-based nonprofit inspired by Daniel's work and now supporting medical and educational development in the region. Both Daniel and Hatun Runa bring high school students and parents to this distant region to experience the fascinating culture and help build schools and health posts deep in the mountains. Please come and learn about Daniel's archaeological work and hear Wayland students speak about their plans to build a school in a small village this summer. This event will be accompanied by a photography exhibit.

NOVA Night with Evan Hadingham
The Mysterious Crash of Flight 447

Wednesday, February 9 7:30-9:00 p.m.

On June 1, 2009, Flight AF447, an Air France Airbus A330 flying from Rio de Janeiro to Paris, disappeared over the Atlantic Ocean with the loss of all 228 lives. How could a state-of-the-art airliner with elaborate electronic safety and navigation features and a faultless safety record simply vanish without trace? NOVA assembles a team of seasoned pilots, engineers and safety experts to examine the evidence that emerged in the weeks following this horrific disaster. With expert testimony, satellite weather images, and messages transmitted by the doomed plane's computer system, NOVA pieces together the fatal chain of events.

NOVA's Science Editor and Wayland resident, Evan Hadingham, talks about his research on the mystery and will show an excerpt from the program, which will air on PBS on 2/16/11.

Angela's use of pattern, texture, and color appeals to a broad audience and her work is done primarily in watercolor, pastel, oil, and mixed media.

WAYLAND READS EXHIBIT

The January exhibit in the Wayland Cultural Council Gallery in Town Building is hung by the "Wayland Reads" Committee to promote the book, *Zeitoun,* by Dave Eggers. The exhibit will highlight the Wayland-to-Waveland connection, information on "Wayland Reads" community events and book discussions, and artwork inspired by Hurricane Katrina. Join us for a kick-off reception for "Wayland Reads" on Thursday, January 20, from 7-8 p.m. in the gallery at the Town Building. The exhibit is sponsored by the Wayland Cultural Council.

WAYLAND READS: THE OTHER STUFF

You've read *Zeitoun,* it blew you away, now you want to learn more about what happened in New Orleans. How do you do it in the library?

To start, you can do the following Keyword search in the online catalog: HURRICANE KATRINA, limited to Wayland. You'll get 56 results. Click "Modify search," then click on the format you're looking for in the drop-down menu (e.g. book, DVD). If you want to look beyond Wayland at the entire Minuteman Library Network, simply re-do your original search but choose "All Locations" from the menu to the right of the search blank.

If you're looking for articles, go to our home page, click on "Research Databases," choose a general-interest database such as General OneFile and do the same search (try it as both subject and keyword). Limit it to full-text, and you'll still get a ton. Try an Advanced Search if you're looking for coverage by a particular publication, or want to narrow it to a particular time. There's a lot of stuff out there, but we have it right here!

POETRY WORKSHOP

THE ARTISTRY OF BEADS

Ann Tevepaugh Mitchell
Great Presenters Series

Ann uses tiny glass beads to construct three-dimensional figurative figures, landscapes and jewelry that is "wearable art." She joins each bead individually with needle and thread and the beads form their own armature, supported by the tension of the thread. She works improvisationally, without patterns or models. Ann will present an illustrated talk about the fascinating process of beadweaving and how it came to be her medium of expression.

Tuesday, February 1
7:30-9:00 p.m.

WAYLAND READS

Our selection, Dave Eggers's *Zeitoun*, is the compelling story of one man's struggle for survival against nature and man in hurricane-ravaged New Orleans. Called "the stuff of great narrative nonfiction" by the *New York Times Book Review*, it speaks to many abiding and current concerns about government, community, and justice.

We have lots of ways to take part in this event, including book groups, history and science presentations, and panel discussions. There will also be a movie, programs just for teens and kids—and discounts from local merchants when you wear your Wayland Reads button.

Don't miss out on this town-wide conversation!

The Mysterious Crash of Flight 447
Wednesday, February 9 7:30-9:00 p.m.

Evan will show a preview from the upcoming NOVA program on this subject, which airs on PBS on February 16. NOVA's unique forensic approach to the mystery leads to chilling new insights on the challenges that the pilots faced on that stormy June night, and raises troubling questions about the increasing role of automation in today's state-of-the-art airliners.

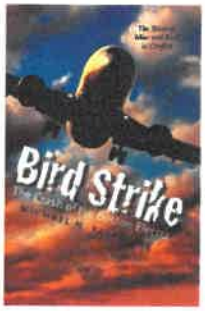
LYDIA MARIA CHILD – WAYLAND'S CHAMPION OF FREDOM

Lydia Maria Child was one of the leading authors and abolitionists of the nineteenth century. A Wayland resident for over 25 years, Child has been inducted into the National Women's Hall of Fame and the National Abolition Fall of Fame, yet the people of Wayland have barely heard of her. She wanted to hide her light under a bushel, but has she been too successful at doing so? You can make up your own minds as Jane brings many of her stirring achievements to light.

Tuesday, March 1, 7:30 p.m..

Jane Sciacca is President of the Wayland Historical Society, a National Park Ranger, and tour guide. She has spoken twice on Mrs. Child at the National Abolition Hall of Fame

BIRD STRIKE!



Join Wayland resident and author Michael Kalafatas on **Wednesday, February 16, at 7:30 p.m.** when he talks about the subject of his new book, *Bird Strike: The Crash of the Boston Electra.* This is a story of bird and man in conflict. It is an intriguing and thoughtful investigation of New England's first major air disaster, caused by a massive bird strike, a half-century ago. Mr. Kalafatas says that *Bird Strike* is a rare instance where an author can simultaneously write about a fascinating historical event and a clear and present danger. The threat of bird strikes on airliners is never greater than right now as birds and aircraft fight for airspace in increasingly crowded skyways.

EARRING WORKSHOP

On **Saturday, February 26, from 2 -4 p.m.** Norma Radoff returns to the library to give a fifth workshop for beginners on working with semi-precious stones. Photography Exhibit By Willard Traub

The February Foyer Exhibit will feature photographs by Willard Traub taken during floods in Wayland last March and April. After several days of heavy rain, water enveloped Pelham Island Road and local residents relied on an amphibious duck vehicle, a flat-bed truck, and school buses—all provided by efforts of the town—for transportation. Traub states, "The lack of traffic provided a quiet that I hadn't experienced since the blizzard of 1978. The photographs…are an edited view of some of what I saw and felt as I regarded my temporarily changed world."

Greco-Roman Mythology with Frank Smith

From the Battlefield to the Bedchamber: Stories of Romance, Intrigue, Betrayal, and Abandonment

From Mr. Smith: "In this six-week course, we shall read and discuss accounts of some of the famous and not-so-f amous love affairs of Classical mythology. Selections from the *Heroides* of Ovid, Edith Hamilton's *Mythology* and two plays by Euripides, *The Medea* and *The Bacchae*, will provide stepping stones into the world of the human condition. We shall view examples of artworks whose creation through the ages has been inspired by these ageless tales. Before our first class meeting, you are urged to obtain a copy of Ovid's *Heroides* (Penguin Classics) and of Edith Hamilton's *Mythology* (although any other good anthology of Classical myths will do). Copies of Euripides' two plays will be provided."

"Power to the People Right Here" with Dan Frio

Tuesday, March 8, 7-9pm

Bullying recently captured national attention through the tragic death of Phoebe Prince and the lesser-reported suicide of Carl Joseph Walker-Hoover. The hurtful and destructive use of power that led to these tragedies speaks to the unjust applications of power that have continually challenged our country's attempt to achieve the "Pledge of Allegiance's" declaration of "justice for all." From issues of social popularity in classrooms, to the aftermath of Katrina as presented in ***Zeitoun,*** and the tragic deaths in Tucson, people need to address their own individual and institutional use of power in order to achieve true social justice. How we as individuals use our own power on the local level will be the focus of a conversation with Daniel Frio, former WHS teacher. Currently, Dan is working as a Lead Teacher for a course on Human Rights in collaboration with TEC and Suffolk University, and has just finished writing a book, *Voices From Inside the Belly of the Beast: Uncensored Words From the Classroom.* Sponsored by the Wayland Diversity Network.

GREAT DECISIONS 2011

March 18
9:15 AM - 11:30 AM
Topic: U.S. Security

U.S. national security priorities were expanded after the terrorist attacks of September 11, 2001, to include waging war in Iraq and Afghanistan, tightening border security, pursuing cyber-threats, halting nuclear proliferation and attempting to snuff out homegrown terrorism. How has the U.S. national security agenda evolved since 9/11? In what ways will this agenda shape the American way of life in the future?

At the age of 95, Harold Melnicove still enjoys his lifelong hobby of painting. His only formal training was at the Corcoran School of Art in Washington, D.C., which he attended from 1934-35. "WHAT'S NEW?"

A *lot*, that's what. We're adding things to the collection every day. To find out what they are, just go to our home page, put your cursor on "Reader's Corner," and click on "New Items." From there, you'll find lists of everything we put in the library in the previous month—every book, Book on CD, Playaway, ebook, DVD, and music CD. Click on the item's title and go right to the catalog page, where you can put it on hold by using the "Request" button. Everything new, right there for you.

GREAT DECISIONS

June 17, 9:15 AM - 11:30 AM

TOPIC: Germany Ascendant

Germany has emerged from both the financial crisis and the eurozone crisis as the dominant economic and political power in Europe, in particular setting the tone for dealings with Russia, Eastern Europe and Iran. How important is it for U.S. interests to enhance relations with Germany, and how should the U.S. react when German and U.S. interests fail to align?

VIRTUES OF THE VIRTUAL CATALOG

"Oh no! The Minuteman Library Network doesn't own the book/recorded book/magazine /DVD/CD/playaway I'm looking for! Whatever shall I do?"

Fear not, Gentle Reader/Listener. With the Virtual Catalog, you can search the holdings of nearly every public library in Massachusetts (including Boston's), and a number of academic libraries. Just click on the link found on the MLN main search page. Then choose your library from the drop-down menu and enter your library card. At that point, you'll be on the VC search page. *(Hint: if you're looking for a book, search by its ISBN, usually available on Amazon. Makes your search much more precise.)*

Once you've found your item, click on the blue Request button to its left. If the owning library is willing to lend it, a few more clicks and you're done. (If the library isn't willing—this does happen—see the Reference Librarian.)

VC requests usually take a week to 10 days to come in. To check on your request's status, simply log in and click the button marked "Review Your Requests." We'll let you know when the item arrives, as with any other hold.

There's an entire commonwealth of information at your fingertips, one that was accessed almost a *million times* last year across Massachusetts—thanks to the Virtual Catalog!

Limited Library Services At the End of August

At the end of this summer, the main floor of the library will undergo planned maintenance, which was deferred for one year due to last year's flooding. The carpet on the main floor will be replaced, the damaged plaster on ceilings will be repaired, and the whole upstairs will get a fresh coat of paint. The library will be completely closed on Friday, August 12, and Saturday, August 13, to allow the staff to relocate upstairs operations to the Raytheon Room. The library will open on Monday, August 15, with limited services for adults in the Raytheon Room but full service in the Youth Services Department. The work is expected to take between two to three weeks. During this time there will be little access to the upstairs collection but items may be placed on reserve and you will be able to pick them up here at our library.

Don't Want to Wait? Check It Out Yourself!

Our new self-service terminal, located on the adult level right next to the doorway, offers a quick and easy way to check out your materials. Simply scan the barcode on your library card, scan the library barcode on each item, press FINISHED, and take your receipt. That's all there is to it.

NOTE: be sure to scan the library barcode, usually located on the cover or first page and labeled "Wayland Public Library," and *not* the UPC barcode, usually located on the back.

Library Stats

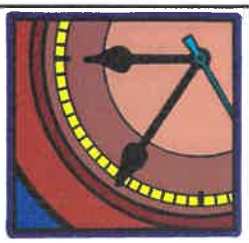
LIBRARY CLOCK REPAIR



The library owes a big debt of gratitude to Wayland resident Michael Poisson for taking on the preservation and regulation of the three antique clocks in our collection at no charge. Poisson is a third-generation horologist. Considered New England's foremost clock repairman, he has been fixing and restoring antique clocks and watches for more than four decades. He began his clock and watch making apprenticeship at age ten with his grandfather and father. After completing his formal education, he continued his pursuit of clock making and restoration under the tutelage of a renowned master European clockmaker. In 1989, he moved his clock repair business to its present location in Wayland. Most recently for the library, Poisson worked on the French clock that is housed on one of the mantlepieces in the rotunda. Thank you, Michael, for keeping our clocks in such wonderful condition!

LIBRARY CLOCK REPAIR

The library owes a big debt of gratitude to Wayland resident Michael Poisson for taking on the preservation and regulation of the three antique clocks in our collection at no charge. Poisson is a third-generation horologist. Considered New England's foremost clock repairman, he has been fixing and restoring antique clocks and watches for more than four decades. He began his clock and watch making apprenticeship at age ten with his grandfather and father. After completing his formal education, he continued his pursuit of clock making and restoration under the tutelage of a renowned master European clockmaker. In 1989, he moved his clock repair business to its present location in Wayland. Most recently for the library, Poisson worked on the French clock that is housed on one of the mantelpieces in the rotunda. Thank you, Michael, for keeping our clocks in such wonderful condition!

LIBRARY CONSTRUCTION

What's happening at the library? Before the flood last spring, the upper levels of the library were scheduled for repairs of the walls and ceiling where water had leaked in from the old roof and damaged the plaster. In addition, carpeting that was over 25 years old was worn, loose and creating tripping hazards that needed to be addressed. The upper levels also badly needed painting after 25 years. The repair work was scheduled to be completed last summer. Unfortunately, it had to be deferred while the upper levels served as storage last summer for library materials and furniture from the lower levels which were being rebuilt after the flood. So, this summer the upper levels are finally getting fixed up! The main library is getting new paint, and we are reverting to historical Greek revival colors in the library rotunda. The upper levels are being re-carpeted, some floors are being refinished, and the crumbling and bubbled plaster are being repaired. We expect to reopen as a fully functioning library the week of September 12. In the meantime, we have relocated all services to the lower level and are open for our regular hours.

The Joy of Getting Things Done

Monday, October 3 7:30 PM - 9:00 PM

Are you a person who:

- Is always disorganized?
- Doesn't use time effectively?
- Wastes money as a result of being disorganized?
- Squanders hours on the Internet?
- Struggles to keep up with personal tasks and to-do's?
- Never achieves your New Year's resolutions?
- Lets life run you, instead of the other way around?
- Wants to change your ways but doesn't know where to start?

Life Coach Linda King will explain how these behaviors are not the consequence of lack of will power or self-discipline. Rather, it is absence of having effective systems in place that hinders people from making the changes that they want to make in their lives. This presentation will introduce people to those systems and offer some specific skills and strategies to help them meet their goals. Audience members leave with a realistic, achievable approach to meeting those challenges that hold them back , feeling empowered to make immediate, positive changes in their lives.

The Brain Balance Program is a comprehensive, individualized program that integrates sensory, motor and cognitive exercises to correct a fundamental imbalance between a person's "left brain" and "right brain." The program does not rely on drugs, medical procedures, or psychotherapy.

RETIREMENT OF KATHY POWERS

For the past ten years our library has been extremely fortunate to have benefited from the services of Kathy Powers, first as a reference librarian and computer specialist and, since 2003, as our Assistant Director. Kathy came to us with work experience in private industry and extensive experience in academic libraries. She was an academic librarian at Boston College and MIT for 25 years, which included managing MIT's Plasma Science & Fusion Center Library for over a decade. She oversaw the Wayland Library's migration to a client/server environment and has served as our systems administrator for many years. She has also headed up our reference department. Her commitment to top-notch customer service is unassailable and her meticulous record-keeping skills are legendary in our library! Like most librarians, Kathy is a voracious reader, and she is an accomplished photographer and beader as well. Kathy is set to retire in mid-September. We will miss her sound judgment, her sharp intelligence, and her commitment to the library's patrons and her colleagues. The library staff and trustees join her many friends in Wayland in wishing her a very happy retirement.

"THE CHACHAPOYA– MUMMIES & MAUSOLEUMS IN THE HIGH JUNGLE OF THE ANDES"
with Daniel Fernandez-Davila

This Pre-Inca civilization in the high jungle of Peru resembled some of the uncovered Mayan ruins at the end of the nineteenth century. It has left countless sites, mummies and mausoleums behind that are now covered by thick vegetation. Today, spectacular findings are allowing us to better understand this unknown civilization and its connections with the Inca Empire. *Daniel is an active archaeologist who has conducted excavations and mapping projects throughout the Andes. He has an MA in Archaeology and has served as an advisor for both BBC & The Discovery Channel in the production of documentaries of Andean ancient civilizations. He has 17 years of teaching experience and is currently teaching Social Studies at Wayland Middle School.*

The first program will be on **Tuesday, September 20, at 7:30** in the library's Raytheon Room. Come join Doug to learn about some no-cost and low-cost ways you can save energy in your home. Bring your energy bills and the square footage of your home with you if you want to know your home's rating. This is the first seminar in a three-part series that will include more significant upgrades in October and renewable energy systems in November. September Foyer Exhibit Photography by Jerry Swirsky

Jerry Swirsky's interest in floral photography began in the early '80's. In creating perennial gardens around his own property he discovered peonies. Their bright colors and beauty prompted him to create a greeting card company and make enlargements for resale featuring his own flowers and arrangements. Jerry is a residential real estate broker in Wayland.

Old English Song

Oh for a booke and a shadie nook
Either in-doors or out;
With the grene leaves whisp'ring overhead,
Or the streete cryes all about,
Where I may reade all at my ease,
Both of the new and olde;
For a jollie goode booke whereon to looke,
Is better to me than golde.

The Ancient Silk Road--Journey Across Central Asia

December 13 at 7:30 p.m.

In this photographic lecture, we explore the historic cities of the Silk Road, including Samarqand, Bukhara and Kashgar, places that flourished for over 1,000 years along the trading routes that connected across 5,000 miles between central China and Istanbul at the doorstep of Europe. The presentation will focus on the legacies of the Silk Road trade on these places, including architecture, religion, language, ceremonies and food. Photography will highlight the travels of the lecturer as he followed the caravan routes of the Silk Road traders threaded over high passes through rugged, snowy mountain ranges and across vast and forbidding deserts.

Barry Pell is a world traveler and photojournalist. He has traveled widely over the past 40 years, visiting and documenting landscapes and cultures in 157 countries. Mr. Pell also lived and traveled in China for two years and in eastern Europe for one year. He currently lectures on international cultures at schools, universities and institutions in the Boston area.

What economic, social, political and security concerns are currently on the agendas of intergovernmental bodies, and what is the future U.S. role?

New Color Printer

You've been clamoring for one and now we've got it: a color printer for the public! (*sound trumpets*) It's on the counter near the Internet computer corner, facing its older, black-and-white sibling. You can print to it from any public computer in the library. Printouts are 25 cents a page. Why so much more than the other printer? Because it's *color.* It's *hot.* And it's here at last.

Great Presenters Series
Preparing for the Future of Flooding in Wayland
with Pablo Suarez

The recent floods in Wayland fit a pattern of increasing risks of extreme events, due to land use conversion and a changing climate. What exactly is going on? Should we be doing anything about it? Building on lessons from history, science and each other, we will engage in a serious yet fun, game-based activity where your decisions will have consequences (with winners and losers).

Pablo is Associate Director of Programs for the Red Cross/Red Crescent Climate Centre, as well as a visiting fellow at Boston University.
